CI2018 Emerging Issues Symposium
Abstract Guidelines

The American Cochlear Implant Alliance invites you to submit abstracts for consideration at the CI2018 Emerging Issues in Cochlear Implantation Symposium, March 7-10, 2018 in Washington, DC. Please review the below guidelines before submitting your research.

- The deadline to submit abstracts is Tuesday, October 17, 2017 at 5:00 PM EST. Please be advised that there will be no extensions to this deadline date, so plan ahead!
- Authors are encouraged to submit research pertaining to the Emerging Issues identified for the CI2018 program. Click here to review the C2018 Emerging Issues. We are also looking for presentations on other cochlear implant topics so submitters should not feel that they must confine themselves to these four topics.
- Abstracts must be submitted in English.
- Indicate the preferred type of presentation (oral, poster).
- The title should be as brief as possible but long enough to indicate clearly the nature of the study. Abbreviations must not be used in the title.
- The title text should be no longer than 300 characters.
- The body of the abstract should follow the following structure: Introduction, Methods, Results, Conclusion.
- Abstract text (without title) should be no longer than 3,000 characters.
- Please check spelling and grammar carefully. **All abstracts will be published as submitted.**
- Please use generic names in the body of the abstract. No commercial, hospital, or institution names may be used.
- Disclosure documentation will be collected during the submission process. You MUST complete this in order to submit your abstract.
- In general, we are not able to accept Podium proposals by CI company personnel that address issues relating to a specific cochlear implant device. Posters on CI specific topics may be submitted and will be evaluated based upon the review committee's merit evaluation. This is a continuation of the decision-making process regarding abstract acceptances at CI conferences that has long been in effect.
- Abstracts for podium presentations by CI company personnel on non-device topics are welcome on other topics such as health care, public policy, health insurance, or rehabilitation.
- Upon acceptance, all presenting authors of both oral and posters must register for the meeting and are responsible for their registration and travel expenses.
- ACI Alliance will provide additional details regarding presentation format and requirements following acceptance of your abstract.
